Foreword

Of course, the kitchen is the heart of today's home - the busy, bouncy beating heart where our families meet, eat, love, laugh and celebrate. It's become the hardest working room in the house, and I believe it's the one room that absolutely deserves the very best, in fact, the most Quintessential Llewelyn-Bowen design imaginable.

Using all my aesthetic experience and design knowledge, I've imbued my Quintessential kitchen collections with a series of style solutions that I know will thoroughly capture the imagination of today's kitchen customer. My concept is to create four distinct design identities from which you can thoroughly tailor a bespoke-like kitchen for a space that looks and feels couture but at an enticingly prêt à porter price point.

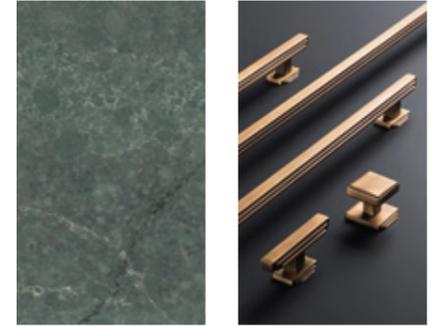

The Quintessential concept challenges the ethos that kitchens should be repetitive, neutral, and ultimately uninspiring spaces. By thinking outside the ubiquitous grey box of kitchen design, I'm reflecting the new confidence and exuberance that homeowners are showing in how they create interiors, which they insist should reflect their particular personality.

From the outset, I knew the perfect way to introduce the Quintessential concept to you, the customer, was through a highly successful and extremely energetic partnership with independent kitchen retailers. The big-name chains simply don't have the knowledge, respect, or design credibility to give customers the kitchen they've always dreamed of. As the independents know, it's all about relationships.

Be Bold, Be Different.

Laurence

“Inspired by the stately elegance of Regency design, the Albany Collection is my ode to timeless sophistication.”

The Albany Collection

In Albany, elegance meets bold architectural design, transforming kitchens into refined living spaces. Albany blends interior decoration with furniture design, embodying sophistication and finesse. Laurence calls it an “incredibly tailored collection,” where every detail reflects craftsmanship, luxury finishes, and rich, tactile colours inspired by Regency and Georgian townhouses.

Designed for the discerning, Albany is a timeless statement of elegance and permanence. Its ornate cornices, refined panelling, and muted yet regal palette create a sense of quiet luxury, perfect

for those who appreciate classic interiors with modern functionality.

Beyond aesthetics, Albany is designed for today’s multifunctional living. Laurence’s vision ensures that this kitchen feels as much a part of the home as any living space, with a sophisticated yet personal approach to kitchen design.

Albany is more than a kitchen - it’s a lifestyle, and it makes the kitchen “the most important space in the home,” where beauty, function, and personal expression come together effortlessly.

“Luxurious yet wonderfully versatile, Cashmere is all about effortless elegance with a dash of contemporary chic.”

The Cashmere Collection

Cashmere is the ultimate celebration of neutral design, bringing sophistication and subtle luxury to your kitchen in a way that’s anything but a cop-out. “Neutral can be incredibly sexy,” Laurence declares, and this range proves it with its delicate textures and harmonious combinations that make your kitchen come alive.

Designed for the style-conscious homeowner or the busy professional, Cashmere blends timeless aesthetics with intelligent functionality to make a kitchen that feels effortlessly

elegant, calm yet compelling. “It is a celebration,” Laurence explains, “a space where subtlety speaks volumes.” It’s about finding beauty in restraint, where the finest details elevate the everyday.

It’s a space that allows you to embrace the beauty of simplicity without sacrificing personality.

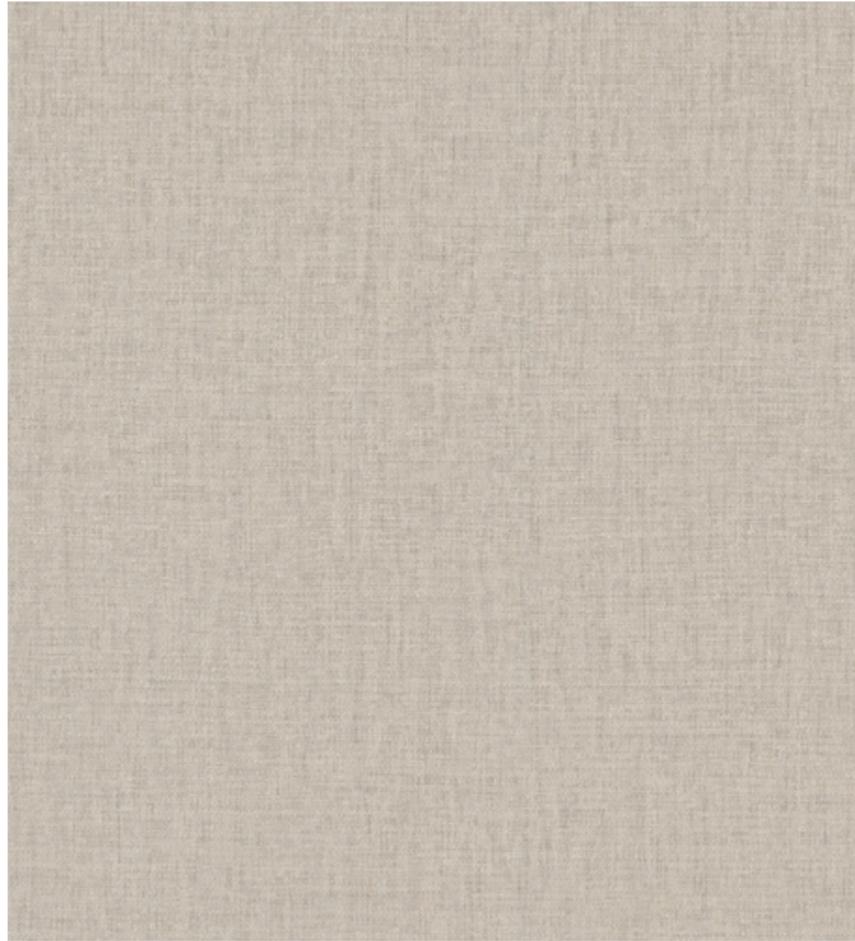

Cashmere offers a high level of curated design that gives even the most restrained aesthetic a voice. It’s a kitchen that doesn’t shout for attention but instead whispers luxury in every detail.

“If you’ve ever felt that your kitchen should have more personality than your living room, welcome to Kitchen Disco.”

The Kitchen Disco Collection

Kitchen Disco is a fearless celebration of maximalism, where glamour meets functionality, and every day becomes a reason to celebrate. Laurence describes it as “the crazy one”, and he’s not wrong. Laurence declares, “This range embodies family life and all the joy that comes with it. It’s playful, bold, and full of personality.”

Its bold, jewel-toned cabinetry, statement lighting, pastel palette tones, and matte finishes create a visual feast that instantly raises

the kitchen from a mere workspace to an unforgettable experience. Perfect for those who believe in living life to the fullest, the Kitchen Disco Collection is your invitation to make your kitchen the star of the show, designed to make you feel like anything is possible.

It’s for those who love to live life in full colour - extroverts and entertainers who thrive in the spotlight and like the volume turned up. A stage - a vibrant space where you can cook, entertain, and dazzle in full technicolour.

“Embodying the art of good living - because your kitchen should be as effortlessly delicious as the meals you prepare in it.”

The Cuisine Collection

Cuisine is deeply personal - a love letter to the kitchens of our past, infused with the warmth and familiarity that Laurence fondly remembers from his childhood. It's designed for living, not just cooking. "These are the kitchens that had pattern, that had colour, that had texture," Laurence says with pride.

Inspired by the rustic elegance of Provence and Tuscany, this collection marries earthy textures with luxurious materials, such as hand-painted cabinetry and stone countertops.

Cuisine evokes the charm of a country estate kitchen with all the modern conveniences one could wish for.

It's tailored for the culinary enthusiast who believes that the kitchen is not just a space for meal preparation, but a sanctuary where the heart of the home beats strongest and comfort and function coexist effortlessly.

It's for those who appreciate authenticity, tradition, and the pleasure of good food shared with loved ones.
